Subject: Portland Harbor Recreational use PHA
Date: 10/15/2008 03:48 PM

Hey guys,

Now that I am finished (almost) with the Formosa Mine public health assessment, I'm getting my head back into our planned public health assessment for recreational use of Portland Harbor. This assessment will not cover fish consumption because Dave Stone already did that in an earlier PHA. I think we will do clam consumption as a separate, smaller, health consultation later on. The document I'm gearing up for will be focused on recreational users and their direct exposure to surface water and sediment through recreational activities. We are also going to do a needs assessment to see whether a separate PHA addressing the unique exposure scenarios associated with transient use could have a positive public health impact.

Anywho... I am hoping that one of you can tell me who could get me Excel versions of some of the tables in Appendix F of the Comprehensive Round 2 Report. Specifically it would be good to have Tables 2-7 through 2-11 and tables 3-2 through 3-7 in Excel.

Thanks,

David Farrer
